BETTER CONNECTIONS

Our components for success

” We connect with passion.
Developing outstanding solutions for your products is our passion.

” We are your specialists.
We provide perfect solutions for your applications.

” We put you first.
We listen to your needs and focus on your requirements.

Quality and sustainability

Certified according to
■ ISO 9001:2015 (Quality)
■ ISO 14001:2015 (Environment)
■ ISO 45001:2018 (Occupational Health & Safety)

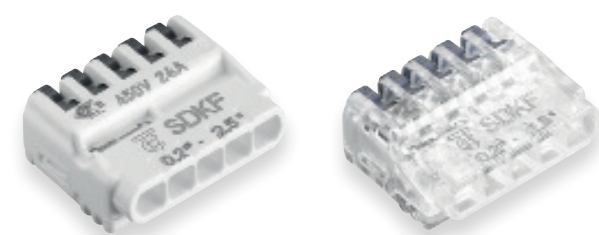

Quality tools
■ Lean Management
■ Six Sigma

Participation in international committees
■ Zhaga Consortium
■ LINECT

Environmental conformity
■ RoHS
■ REACH

Cooperation with international testing laboratories, e.g. UL, VDE, ÖVE etc.

Installation

SDKF

Universal wire connector

- For rigid and flexible wires
- With 2, 3 or 5 terminals
- Several wire cross-sections can be combined in one connector

Video: SDKF on YouTube

SDK

Screwless junction box connector

- For rigid wires
- Wires can be released by twisting and pulling
- Easy to push in – high pull-out force

EKL S

Terminal strip polypropylene

- Easy to divide: "twist 'n pull®"
- Supreme pliability
- Easy wire entry

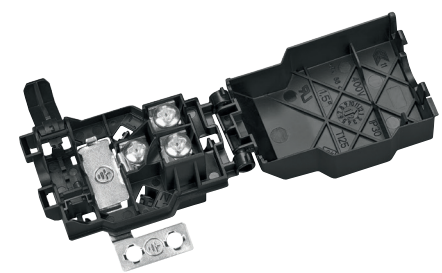

FD

Damp-proof junction boxes

- IP54
- Three different sizes

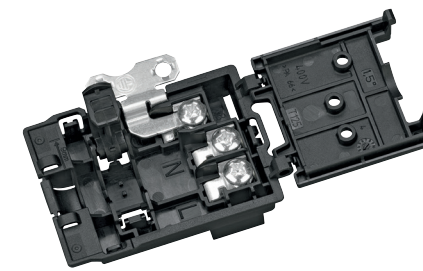

Household appliances

KADO 2/3 OS

With opened screws

- Quick and safe contacting
- Screwless strain relief
- Internal and external earthing

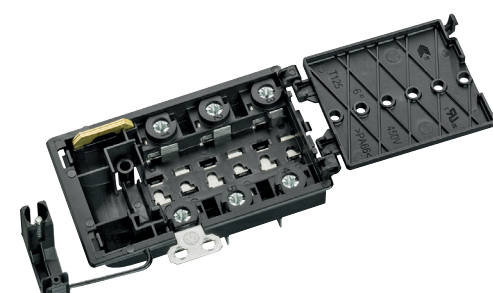

KADO FL

"As flat as can be"

- Screwless strain relief
- Two angled fastons per pole
- Simple cutout

Video: KADO FL on YouTube

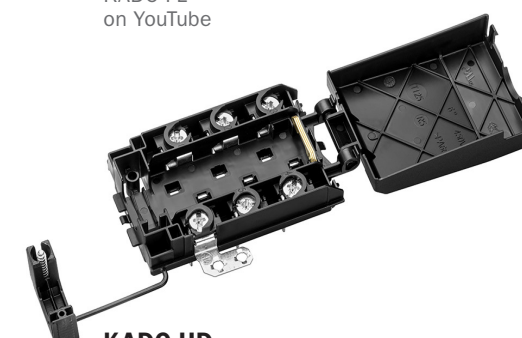

KADO XT

Flat cable connection box with three phases

- 5- or 6-pole model
- Robust strain relief, screw-fastened
- Three or four fastons per pole

Video: KADO XT on YouTube

KADO HD

Successor of KADO K 1/6

- Large clamping range, open cage
- Same cutout as KADO XT, KADO XM & KADO K 1/6
- Parking position for strain relief

Video: KADO HD on YouTube

Lighting

SLK 7

Our "super flat one"

- W x H = 27 mm x 11 mm
- Only 11 mm high
- 5 poles for power supply and DALI
- Different fixing & earthing variants

Video: SLK 7 on YouTube

SLK 8

Our "smart one" with integrated CASAMBI module

- Luminaire connection & DALI power supply combined
- Different fixing & earthing variants

Video: SLK 8 on YouTube

SLK 5

Miniaturised screwless luminaire connector

- Compact design
- Large clamping range
- Also available for protection class II applications

MICROCON SMD PURE

Our "naked solution"

- For horizontal or vertical connection
- Without plastic housing

Video: MICROCON SMD PURE on YouTube

MICROCON SMD

Our "little one"

- For manual and automatic wiring
- Low height with only 3.5 mm

Video: MICROCON SMD on YouTube

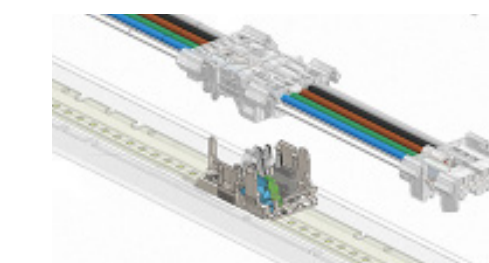

MICROCON SMDP

Our "strong one"

- For direct mains voltage supply
- Internally connected version available

Video: MICROCON SMDP on YouTube

LBK system

for Continuous Row Lighting

- 5-, 7-, 9 and 11-pole
- Socket
- Plug
- Axial connector

Video: LBK 2/11 on YouTube
