

Innsbruck, 7. June 2021

REACH Declaration

Candidate List of Substances of Very High Concern (SVHC) & Substances restricted under REACH

On January 19th, 2021, the European Chemicals Agency (ECHA) published a new list with Substances of Very High Concern (SVHC) according to Regulation 1907/2006 on their website:

<http://echa.europa.eu/candidate-list-table>

Therefore, we would like to inform you that some of our products may contain lead (Pb, CAS 7439-92-1) in a higher concentration than 0.1 mass percent.

Please be advised that based on the information available to us from our material suppliers and datasheets, according to current knowledge, we assume that the products of Electro Terminal do not contain additional substances in higher concentrations than 0.1 mass percent listed at "Substances restricted under REACH".

Substances restricted under REACH: <https://echa.europa.eu/substances-restricted-under-reach>

Because we do not expect these substances to be present, we do not specifically run any analysis on our raw materials or end products to measure for them.

Please contact our sales team any time if you have questions: orders@electroterminal.com

Further updates of the SVHC list may categorize other substances contained in our products as SVHC. In such an event, we will inform our customers accordingly.

With best regards
