

Innsbruck, 8. February 2023

REACH Declaration

Candidate List of Substances of Very High Concern (SVHC) & Substances restricted under REACH

On January 17th, 2023, the European Chemicals Agency (ECHA) published an updated Candidate List of substances of very high concern for Authorisation (published in accordance with Article 59(10) of the REACH Regulation (EC) No 1907/2006) on their website:

<https://echa.europa.eu>

Following products groups may contain Lead (Pb, CAS 7439-92-1) in a concentration of max. 4% in copper alloy which is regulated in RoHS Directive 2011/65/EU exemption 6(c): EKL PA, EKL GW, EKL SVCE, ESKL, ESKLG, ESKW, GSK

Please be advised that based on the information available to us from our material suppliers and datasheets, according to current knowledge, we assume that the products of Electro Terminal do not contain additional substances in higher concentrations than defined listed at “Substances restricted under REACH” and “Candidate List of substances of very high concern for Authorisation”:

<https://echa.europa.eu/substances-restricted-under-reach>

<https://echa.europa.eu/candidate-list-table>

Because we do not expect these substances to be present, we do not specifically run any analysis on our raw materials or end products to measure for them.

Please contact our sales team any time if you have questions: orders@electroterminal.com

Further updates of the SVHC list may categorize other substances contained in our products as SVHC. In such an event, we will inform our customers accordingly.

With best regards

Reinhard Margreiter
Head of Engineering
& Laboratory
