Innsbruck, 13 July 2015

## Notification of product phase-out SLS 1 Screw-Push-in Connector

Dear business partner,

To achieve our aim of delivering products of consistently high quality it is sometimes necessary to revise and adjust our product portfolio.

We are therefore writing to you now to inform you that we have stopped manufacturing the following articles:

Art. Name	Art. Number		
SLS 1G FE	88930709		
SLS 1GB FE	88163492		

We recommend to use SLS 1 FE 2x2 (A) 88715007 as substitute. This successor product has basically the same specifications as the discontinued types and fit into the same cut-out. The new type is equipped with four push-in terminals for factory wiring and the insulating material is Polyamide beige (instead of Polyamide nature).

If you wish any further information on new products or on possible product alternatives, please do not hesitate to contact us on: [office@electroterminal.com](mailto:office@electroterminal.com)

With best wishes for “better connections”,

Reinhard Margreiter  
Product Management
