

# Presentation of Electro Terminal

BETTER CONNECTIONS – this phrase sums up our work stretching back 50 years on tailor-made electrical connection technologies and systems for the lighting industry, the household industry and the installation technology sector. And we have enjoyed considerable success. Today, Electro Terminal sells its products to over 60 countries in the world. Our highly skilled and committed employees share responsibility for the success of the company.

## Products

Innovative connection technologies and customised solutions:

- Connectors for the lighting industry
