Notification of product modification
Packaging through wiring

Dear business partner,

Our aim is to deliver consistently high quality products. Therefore, it is sometimes necessary to adjust and improve our existing products.

We would like to inform you that from 1st of June 2022 we no longer pack the through-wiring reels (LBK 1 and LBK 2) in plastic bags. In the future, the filled cardboard rolls will be packed in carton boxes without further packaging for sustainability reasons.

We certify that the modification does not affect any relevant technical features or approvals of the products.

If you wish any further information on new products or on possible alternatives, please do not hesitate to contact us on office@electroterminal.com

Best wishes for „better connections“,

Mario Hammer
Head of Engineering &
Product Management
